PROFILE & PROSPECT

Sanvik Enterprise is a trusted manufacturer of high-quality Heald Frames and precision-engineered spare parts for the textile weaving industry. We specialize in manufacturing durable, reliable, and precision-made components compatible with leading weaving machine brands. With a strong focus on quality, innovation, and customer satisfaction, we provide products that enhance loom performance, increase productivity, and ensure long service life. Our commitment to precision manufacturing and strict quality standards has made us a preferred partner for textile mills and machinery service providers.

OUR MISSION

To deliver world-class weaving machine components that improve operational efficiency, minimize downtime, and provide maximum value to our customers.

OUR VISION

To become a globally recognized manufacturer of premium weaving machine spare parts through continuous innovation, superior quality, and exceptional customer service.

SUN-WIND

HEALD FRAMES

Sun - wind Brand Heald Frames are manufactured by using :

High quality Aluminium Alloy Profile (Hard Anodized) and special insulation within the Aluminium Profile helps to reduce the noise

Hard Anodized Aluminium Side Supports / Lateral Support with Nano treatment (scratch proof)

Stainless Steel Heald Carrying Bar and Centre Supports

Driving Element / Heald Frame Connectors both Original / Non Original Connectors as per customer requirement

Suitable for all types of Rapiers, Projectile, Water Jet and Air Jet Weaving machine and Auto Drawing In Machines

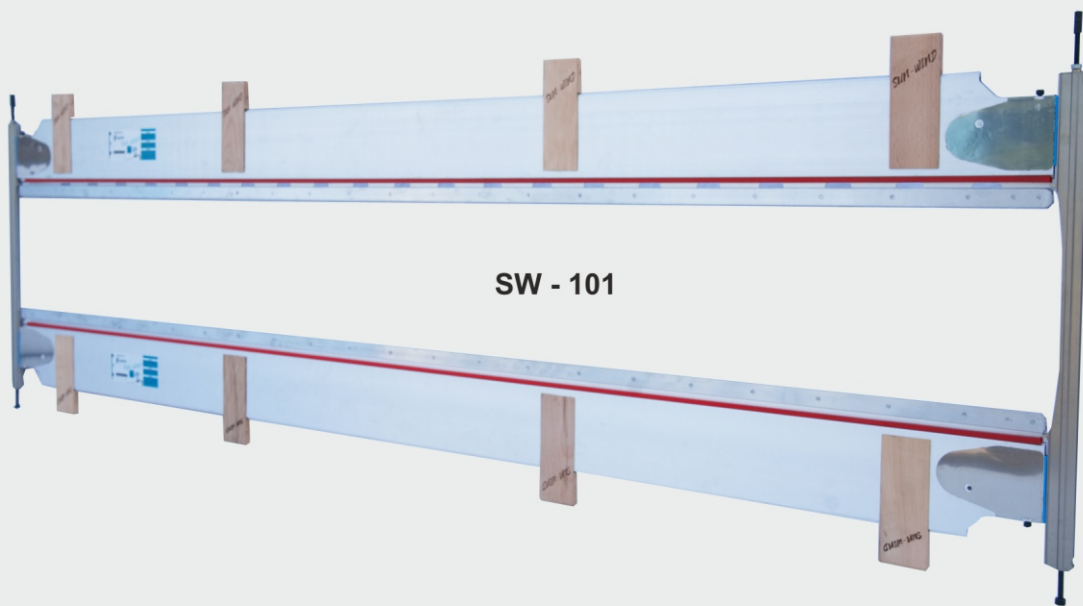

Carbon Reinforced Aluminium Profile – Reinforcing member moulded from high-strength CFRP fiber used in the aerospace industry. By bonding and integrating with the aluminium stave, helps achieving significant increase in rigidity while minimizing the weight increase. Enables use in even higher speed and high load environments.
